

Start an Immunisation Episode

Learn how to start an Immunisation Episode for a person on MediWork

Depending on your organisation and configuration, MediWork may automatically start an Immunisation episode for a person when they're added to the system. When this happens, you do not need to take any other action to start an Immunisation episode for that individual.

1

In MediWork, find the right person in the **People View**

2

Click on the person's row to open their record

MediWork People Manager			
Client Test Organisation Limited			
	First Name	Last Name	Created
DL-000556	Gregory	House	22/11/202
DL-000555	Molly Carpenter	Carpenter	21/11/202
DL-000554	John	Doe	20/11/202
DL-000553	Kamal	Sethi	20/11/202
DL-000552	Wendy	Stone	20/11/202

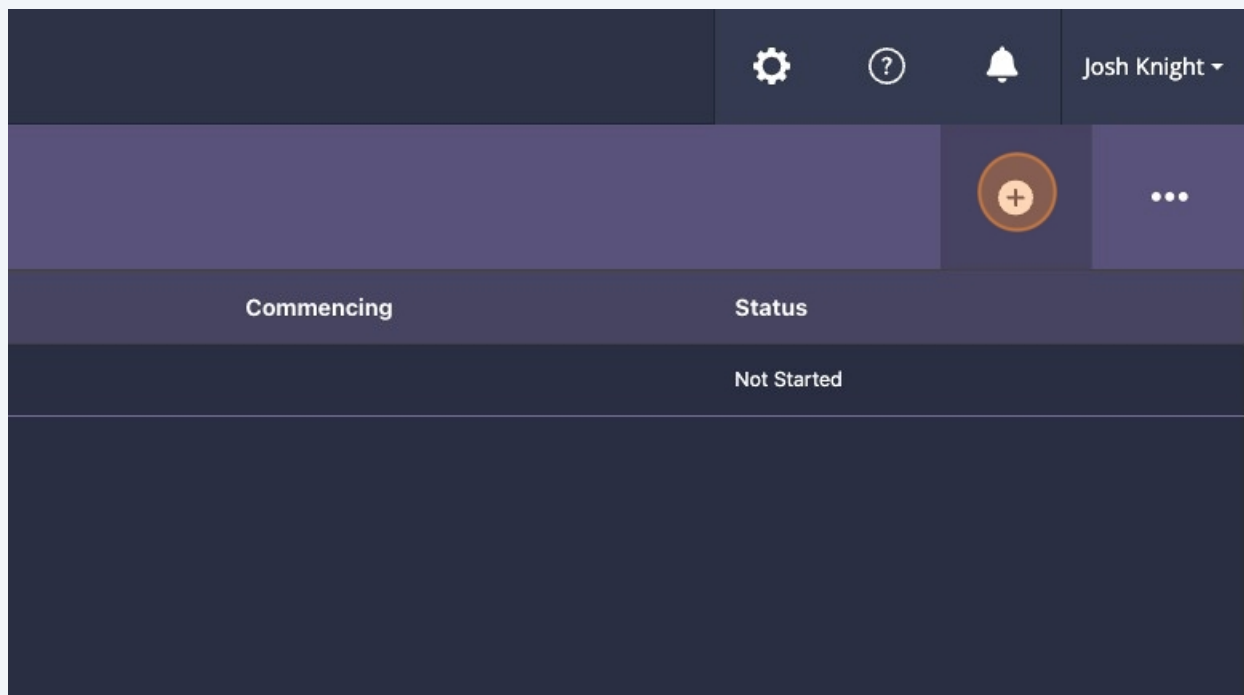

3 Click "Episodes"

The screenshot shows a software interface with a dark theme. At the top, there is a header bar with a profile icon, the text "Test Organisation Limited", and "Gregory House". On the left, a sidebar contains several menu items with icons: a group of people, a stethoscope, a calendar, a bar chart, a gear, and a document. The "Episodes" item, which has a heart icon, is highlighted with a brown circle. To the right of the sidebar, a "Personal Profile" form is visible. The form has fields for "Title" (Mr.), "First Name" (Gregory), "Middle Name" (-), and "Last Name" (House). To the right of these fields, there are labels for "Date", "Gen", "He", "Nati", "Unic", and "TO".

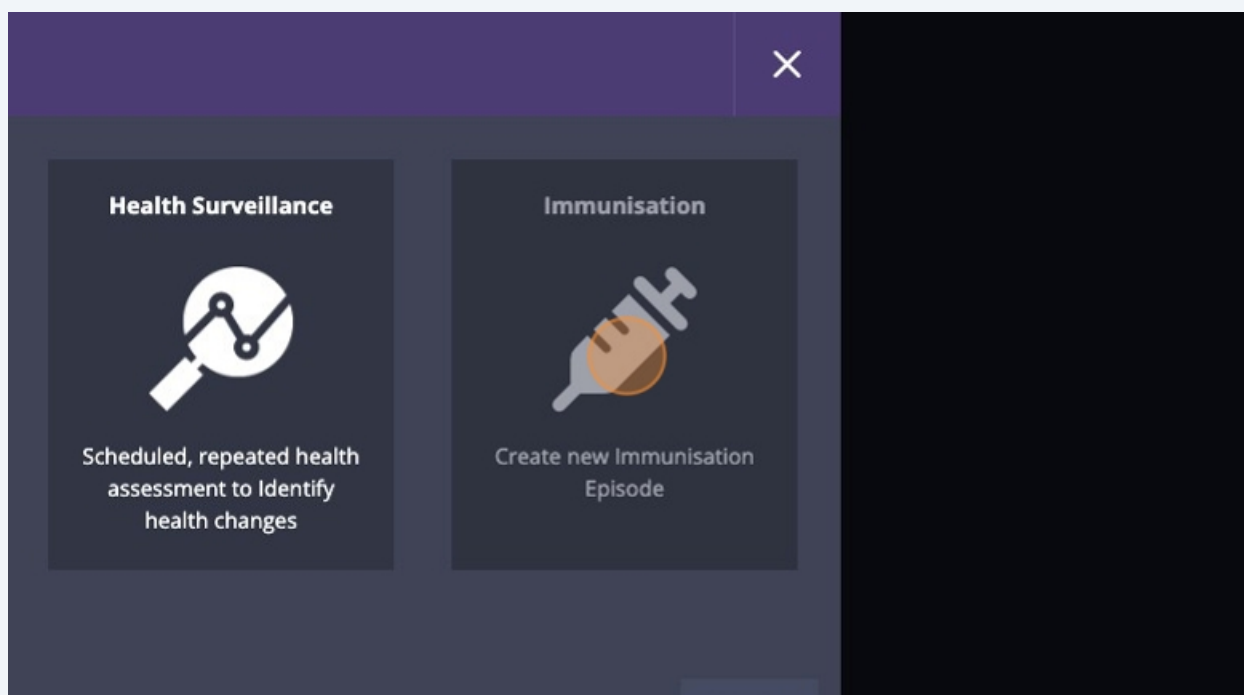

Only one Immunisation episode can be running at a time for a person. Any existing Immunisation episode for that person must finish before starting a new one.

4 Click the "Add new Episode" icon

5 Click "Immunisation"

6

Check the Commencing Date for this Episode, and choose which vaccines / immunisation modules you would like to run for this individual.

By default, MediWork shows you only the modules which are assigned to that person, based on the groups in their profile. To see all the available modules, click the "Assigned modules" toggle.

Create Immunisation Episode: Select Modules

You are starting a new episode of Immunisation for **Gregory House**.

Commencing 22/11/2024, 13:39

Select modules for new episode:

Assigned modules

- ☒ Select All
- ☒ BCG
- ☒ Combined Hepatitis A&B
- ☒ COVID-19
- ☒ Diphtheria, Tetanus & inactivated Poliomyelitis
- ☒ Exposure Prone Procedures

7

When you have selected all the immunisations you wish to include in this Episode, click "Create Episode".

Select All

- ☒ BCG
- ☒ Combined Hepatitis A&B
- ☒ COVID-19
- ☒ Diphtheria, Tetanus & inactivated Poliomyelitis
- ☒ Exposure Prone Procedures
- ☒ Hepatitis A
- ☒ Hepatitis B
- ☒ Hepatitis C

8

The Immunisations Episode will be created, and will open automatically. You can return to it in the Episodes list at any time.

The screenshot displays the MediWork People Manager interface. The top navigation bar includes the MediWork logo, the 'People Manager' tab, and settings, help, and notification icons. Below the navigation bar, the breadcrumb trail shows 'Client: Test Organisation Limited', 'Person: Gregory House', and 'Area: Immunisation'. The left sidebar contains a menu with icons for Person, Organisation, Episodes, Journal, Documents, Communications, Absence Reviews, and Notes. The main content area is titled 'Immunisation Health Modules' and features a table with two columns: 'Immunisation Type' and 'Status'. The table lists six immunisation types, all with a status of 'Not Started'. A right-hand panel shows a 'Status' section with a purple circle containing the number '12', the title 'Immunisation Questionnaire', and the text 'Questionnaire Sent 22/11/2024'. Below this, it says 'Assigned to: Unassigned' with a link 'assign to me'.

Immunisation Type	Status
BCG	Not Started
Combined Hepatitis A&B	Not Started
COVID-19	Not Started
Diphtheria, Tetanus & inactivated Poliomyelitis	Not Started
Exposure Prone Procedures	Not Started
Hepatitis A	Not Started
